

Atkinson Design is currently looking to fill the following position for our client in their Toronto office....

Position: CNC Programmer Immediate Start!!

Location: Toronto

Role: Contract with the possibility of Permanent

Our client is an office furniture manufacturer in Toronto looking for a CNC Programmer on Contract with a strong possibility of full time for the right candidate! To start immediately.

CNC PROGRAMMER

Requirements are: parametric programming, knowledge of programming for curve liner components, various cut-outs, grooving operation.

We are looking for CNC programmer that has an experience. The equipment that we have is Form Homag Group **CNC model WEEKE OPTIMAT BHC 350 with software WOODWOP 4.5 and WEEKE BHX 500 with software WOODWOP 5.0.**The search is immediate for programmer that would be on contract to start- full hour's daily. **If the programmer works out very good there is definitely option for full time permanent position.**

Should have experience in programming curvilinear work surfaces in office furniture and institutional furniture. There is the possibility of there being alot of custom work surfaces. CAD package interface is Solidworks and AutoCAD.

Please forward your resume to wendy.atkinson@gadp.com with CNC Programmer in the subject line.
