

Atkinson Design is currently looking to fill the following position for our client in their Dorval office....

Position: Fuel Systems Lead Mechanical Engineer

Location: Montreal - Quebec - Dorval

Role: (Full time)

Our client is a world leader in the design and manufacture of innovative aviation products and services for the business, regional and amphibious aircraft markets. This legacy of innovation consolidates more than 250 years of aviation history and has developed 23 successful new aircraft programs since 1989.

Responsibilities:

As part of the Propulsion Group, you will be responsible for the fuel and fuel tank inerting systems of the aircraft. Your role will include the managing of the requirements, coordinating with other aircraft systems and structures. Working with the fuel system and fuel tank inerting system suppliers, you will be responsible for assuring timely completion by the supplier of analysis, test planning and execution, and documentation of all aspects of these systems. You will also be responsible for managing a team of employees working these systems.

Qualifications:

- Minimum 10 to 15 years of experience
- Knowledge of FAR 25 certification standards would be an asset.
- Bachelor's degree in Mechanical or Aerospace Engineering
- Willingness to Travel – Occasionally
- Bilingualism (French and English) is an asset
- Experience with installation of fuel systems in composite structures in an aircraft powerplant environment.

Optimum Skillsets and Competencies

- A highly motivated, confident team oriented professional, with excellent verbal and written communication skills
- Knowledge of CATIA is required and Catia V5 is a definite asset
- Strong hands-on aptitude with the ability to work well under pressure
- Responsible for managing a team of employees working these systems
- Drives improvement efforts based on delivering value to customers and stakeholders
- A strong background in engineering technology with an emphasis on aerospace engineering.

Interested candidates should send their resumes to wendy.atkinson@gadp.com. Please indicate in **Fuel Systems Lead Mechanical Engineer** the subject line.
